

The Public Utility Commission of Texas (commission) proposes amendments to §§26.401, 26.403, 26.404, 26.413, 26.414, 26.415, 26.417, 26.418, 26.420 and new §26.410 relating to the Texas Universal Service Fund (TUSF). Project Number 21163 has been assigned to this proceeding. The proposed amendments and new rule are necessary as a result of Senate Bill 560 (SB 560), Act of May 30, 1999, 76th Legislature, Regular Session, chapter 1212, 1999 Texas Session Law Service 4210 (Vernon) (to be codified as amendments to the Public Utility Regulatory Act (PURA), Texas Utilities Code Annotated §§56.021, 56.023, 56.024, 56.026, 56.028, 56.071, 56.072), and Senate Bill 1441 (SB 1441) Act of May 26, 1999, 76th Legislature, Regular Session, chapter 1553, 1999 Texas Session Law Service 5342 (Vernon) (to be codified as amendments to PURA, Texas Utilities Code Annotated §56.1085).

*General changes to rule language:*

Several amended sections reflect the insertion of "telecommunications provider" in the place of "local exchange carrier." These changes are necessary to implement PURA §56.021 and §56.023, as amended by SB 560.

*Specific changes to rule language.*

Proposed §26.403(e)(3)(D) amends the adjustments that may be considered when calculating the support amount by providing for services provisioned through partial unbundled network elements (UNEs).

Proposed §26.403(f) and §26.404(g) amend the reporting requirements to include any information necessary to access contributions to and disbursements from the Texas Universal Service Fund (TUSF). These amendments implement PURA §56.024(a), as amended by SB 560.

Proposed §26.404(e)(3) and §26.417(c)(2)(C) address access service rate reductions. The amendments implement PURA §56.026(d), as amended by SB 560.

Proposed new §26.410 will implement PURA §56.028, as amended by SB 560. The proposed new section allows an incumbent local exchange company that is not an electing company under PURA Chapters 58 or 59 to be reimbursed for reduced intraLATA interexchange high capacity service for certain entities.

Proposed §26.413(a) applies the section's requirements imposed on local exchange carriers to also apply to telecommunications providers that receive TUSF support. Proposed §26.413(b) inserts the new "or 65 years of age or older" eligibility requirement for Tel-Assistance. The amendments implement PURA §56.071(b) and §56.072(b)(1), as amended by SB 560.

It is the commission's intent in the proposed amendments to §26.414(b)(1)(C), §26.417(c)(1)(D) and §26.417(g)(3)(B) to encompass the commission's telecommunications service quality standards. The service quality standard rule sections currently exist in §23.61(c) - (f) and are in transition under Project Number 19666, *Review and Proposed New Sections to Replace §23.61(c) - (f) relating to Quality of Service*. At the October 21, 1999 Open Meeting, under Project Number 19666, the commission approved publication of the repeal of §23.61 relating to Telephone Utilities and publication of proposed new §§26.52 - 26.55 concerning quality of service to replace §23.61(c) - (f). The proposed amendments in Project Number 21163 refer to proposed new §§26.52 - 26.54 on quality of service which may be found in the November 12, 1999 *Texas Register* (24 TexReg 9927) or on the commission's web site at [www.puc.state.tx.us/rules/rulemake/19666/19666.cfm](http://www.puc.state.tx.us/rules/rulemake/19666/19666.cfm). It is the intent of the commission to adopt the amendments in Project Number 21163 after the completion of Project Number 19666. The amendments in Project Number 21163, upon adoption, will refer to the quality of service standards as they exist upon the completion of Project Number 19666. Parties interested in Project Number 21163 may want to monitor or participate in Project Number 19666, since the service quality rules developed in that project will affect eligible telecommunications providers in the TUSF program.

Proposed §26.414(d) addresses special features for the Telecommunications Relay Service (TRS). The section implements PURA §56.1085, as amended by SB 1441.

Proposed §26.414(e) amends the selection of members of the Relay Texas Advisory Committee (RTAC) as prescribed in PURA §56.110, as amended by SB 1441. Proposed §26.414(e) also implements PURA §56.111, as amended by SB 1441, by expanding the reporting responsibilities of the RTAC.

Proposed §26.415(c)(2) allows the commission to delay payment of a voucher to a Specialized Telecommunications Assistance Program (STAP) distributor of devices or a service provider and provides for alternative dispute resolution. The amendments implement PURA §56.153, as amended by SB 1441.

Proposed §26.418(f)(1) has been revised to correct a typographical error.

Proposed §26.420(g)(5)(a)(1) reflects the new line item label approved by the commission in Project Number 19655, *Implementation of PUC Substantive Rule §23.150 (f) and (g)*.

Proposed §26.420(h)(3)(B) restricts the commission from reducing the amount of TUSF disbursements except under specific circumstances. The amendment implements PURA §56.026(c), as amended by SB 560.

Mr. Martin Wilson, Attorney, Office of Regulatory Affairs has determined that for each year of the first five-year period the proposed sections are in effect there will be no fiscal implications for state or local government as a result of enforcing or administering the sections.

Mr. Wilson has determined that for each year of the first five years the proposed sections are in effect the public benefit anticipated as a result of enforcing the sections will be to implement a competitively neutral mechanism that enables all residents of the state to obtain the basic telecommunications services needed to communicate with other residents, businesses, and governmental entities. There will be no effect on small businesses or micro-businesses as a result of enforcing these sections. There is no anticipated economic cost to persons who are required to comply with the sections as proposed.

Mr. Wilson has also determined that for each year of the first five years the proposed sections are in effect there should be no affect on a local economy, and therefore no local employment impact statement is required under Administrative Procedure Act §2001.022.

The definition of "telecommunications provider" is taken from PURA §51.002(10), which states:

"Telecommunications provider:

- (A) means:
- (i) a certificated telecommunications utility;
  - (ii) a shared tenant service provider;
  - (iii) a nondominant carrier of telecommunications services;

- (iv) a provider of commercial mobile service as defined by §332(d), Communications Act of 1934 (47 U.S.C. §151 *et seq.*), Federal Communications Commission rules, and the Omnibus Budget Reconciliation Act of 1993 (Public Law 103-66), except that the term does not include these entities for the purposes of Chapter 17 or 55 or 64;
  - (v) a telecommunications entity that provides central office based PBX-type sharing or resale arrangements;
  - (vi) an interexchange telecommunications carrier;
  - (vii) a specialized common carrier;
  - (viii) a reseller of communications;
  - (ix) a provider of operator services;
  - (x) a provider of customer-owned pay telephone service; or
  - (xi) another person or entity determined by the commission to provide telecommunications services to customers in this state; and
- (B) does not mean:
- (i) a provider of enhanced or information services, or another user of telecommunications services, who does not also provide telecommunications services; or
  - (ii) a state agency or state institution of higher education, or a service provided by a state agency or state institution of higher education."

This new definition will be added to Substantive Rule §26.5 (relating to Definitions) when that rule is amended in early 2000. Comments regarding this definition, however, may be filed in this project.

Comments on the proposed amendments and new rule (16 copies) may be submitted to the Filing Clerk, Public Utility Commission of Texas, 1701 North Congress Avenue, PO Box 13326, Austin, Texas 78711-3326, within 30 days after publication. Reply comments may be submitted within 45 days after publication. The commission invites specific comments regarding the costs associated with, and benefits that will be gained by, implementation of the proposed section. The commission will consider the costs and benefits in deciding whether to adopt the section.

In addition to general comments on the proposed rules, the commission seeks comment on the following sections. SB 560 amends PURA §56.028 to provide reimbursement for reduced rates for certain intraLATA interexchange high capacity (1.544 Mbps) services. The commission invites specific comments interpreting which intraLATA interexchange high capacity (1.544 Mbps) services are eligible for reimbursement. The commission also seeks comments addressing how §26.410 should interact with the educational percentage discounts (e-rate) in §26.216 of this title (relating to Educational Percentage Discount Rate (E-Rate)). Additionally, the commission seeks comment addressing how the lowest rate, as referenced in §26.410(c), should be determined considering §26.141(e) and (f) of this title (relating to Distance Learning Information Sharing Programs, and Interactive Multimedia Communications).

SB 560 amends PURA §56.026 regarding universal service fund disbursements. For the purposes of this rule, how should the commission interpret PURA §56.026(c) and (d)? The commission seeks suggested interpretations of the statute's requirements. The commission also invites specific comments

regarding proposed §26.420(h)(3)(B). Additionally, the commission seeks comment on whether the disbursements identified in the section are total disbursements or dollar/line disbursements. All comments should refer to Project 21163.

The amendments and new section are proposed under the Public Utility Regulatory Act, Texas Utilities Code Annotated §14.002 (Vernon 1999) (PURA), which provides the Public Utility Commission with the authority to make and enforce rules reasonably required in the exercise of its powers and jurisdiction and PURA §56.021, which requires the commission to adopt and enforce rules requiring local exchange carriers to establish a universal service fund.

Cross Reference to Statutes: Public Utility Regulatory Act §§14.002, 56.021, 56.023, 56.024, 56.026, 56.028, 56.071, 56.072, and 56.1085.

**§26.401. Texas Universal Service Fund (TUSF).**

- (a) **Purpose.** The purpose of the Texas Universal Service Fund (TUSF) is to implement a competitively neutral mechanism that enables all residents of the state to obtain the basic telecommunications services needed to communicate with other residents, businesses, and governmental entities. Because targeted financial support may be needed in order to provide and price basic telecommunications services in a manner to allow accessibility by consumers, the TUSF will assist telecommunications providers ~~local exchange companies (LECs)~~ in providing basic local telecommunications service at reasonable rates in high cost rural areas. In addition, the TUSF will reimburse qualifying entities for revenues lost as a result of providing Lifeline, Link Up and Tel-assistance services to qualifying low-income consumers under the Public Utility Regulatory Act (PURA); reimburse telecommunications carriers providing statewide telecommunications relay access service and qualified vendors providing specialized telecommunications devices and services for the disabled ~~device distribution service for the hearing impaired and speech impaired~~; and reimburse the Texas Department of Human Services, the Texas Department of Housing and Community Affairs, the Texas Department for the Deaf and Hard of Hearing, the TUSF administrator, and the Public Utility Commission for costs incurred in implementing the provisions of PURA Chapter 56 (relating to Telecommunications Assistance and Universal Service Fund).

(b) **Programs included in the TUSF.**

- (5) (No change.)
- (c) **Application.** This section applies to telecommunications providers ~~LECs~~ that have been designated ETPs by the commission pursuant to §26.417 of this title.
- (d) (No change.)
- (e) **Criteria for determining amount of support under THCUSP.** The TUSF administrator shall disburse monthly support payments to ETPs qualified to receive support pursuant to this

section. The amount of support available to each ETP shall be calculated using the base support amount available as provided under paragraph (1) of this subsection as adjusted by the requirements of paragraph (3) ~~paragraph (4)~~ of this subsection.

(1) - (2) (No change.)

(3) **Calculating amount of THCUSP support payments to individual ETPs.** After the monthly base support amount is determined, the TUSF administrator shall make the following adjustments each month in order to determine the actual support payment that each ETP may receive each month.

(A) - (C) (No change.)

(D) Adjustment for service provided partially through the purchase of UNEs. If an ETP provides supported services over an eligible line partially through the purchase of UNEs, the commission shall determine the manner in which any THCUSP support for such eligible line may be allocated between the ETP providing service to the end user and the ETP providing the UNEs.

(f) **Reporting requirements.** An ETP eligible to receive support pursuant to this section shall report the following information to the commission or the TUSF administrator.

(1) - (2) (No change.)

(3) **Other reporting requirements.** An ETP shall report any other information that is required by the commission or the TUSF administrator, including any information necessary to assess contributions to and disbursements from the TUSF.

(a) **Purpose.** This section establishes guidelines for financial assistance to eligible telecommunications providers (ETPs) that provide service in the study areas of small and rural ILECs rural ILECs areas and small ILECs' areas in the state so that basic local telecommunications service may be provided at reasonable rates in a competitively neutral manner.

(b) **Definitions.** The following words and terms when used in this section shall have the following meaning unless the context clearly indicates otherwise:

(1) (No change.)

(2) **Eligible telecommunications provider (ETP)** — A telecommunications provider designated by the commission pursuant to §26.417 of this title (relating to the Designation of Local Exchange Companies as Eligible Telecommunications Providers to Receive Texas Universal Service Funds (TUSF)).

  - (4) (No change.)
- (c) **Application.**
- (1) **Small or rural ILECs.** This section applies to small ILECs and rural ILECs, as defined in subsection (b) of this section and/or §26.5 of this title (relating to Definitions), that have been designated ETPs by the commission pursuant to §26.417 of this title.
  - (2) **Other ETPs providing service in small or rural ILEC study areas.** This section applies to [telecommunications providers](#) [LECs](#) other than small or rural ILECs that provide service in small or rural ILEC study areas that have been designated ETPs by the commission pursuant to §26.417 of this title.

- (1) **Calculation of the monthly per-line amount of support for each small or rural ILEC.** The toll pool amounts and access/toll revenue reductions determined in accordance with subparagraphs (A) and (B) of this paragraph shall be added together. To calculate the per-line amount of support, the resulting sum will then be divided by the average number of eligible lines served by such small or rural ILEC during the test year. To calculate the monthly per-line amount of support, the result shall be divided by 12.
  - (A) Toll pool amounts. The toll pool amount for a small or rural ILEC shall be determined by subtracting the actual toll billed by the small or rural ILEC during the test year from its toll pool revenue requirement for the test year, as certified by the TUSF ~~Texas Universal Service Fund (TUSF)~~ administrator.

(i) - (iii) (No change.)

(d) Special features for TRS.

- (1) The commission may contract for a special feature for the state's telecommunications relay access service if the commission determines:
  - (A) the feature will benefit the communication of persons with an impairment of hearing or speech;
  - (B) installation of the feature will be of benefit to the state; and
  - (C) the feature will make the relay access service available to a greater number of users.
- (2) If the carrier selected to provide the telecommunications relay access service is unable to provide the special feature at the best value to the state, the commission may make a written award of a contract to a carrier to provide the special feature to the telecommunications carrier whose proposal is most advantageous to the state, considering:
  - (A) factors stated in subsection (c)(1) of this section;

(C) The TUSF administrator shall ensure that reimbursement to vendors for STAP vouchers shall be issued within 45 days after the STAP voucher is received by the TUSF administrator.

(D) The commission may delay payment of a voucher to a distributor of devices or a service provider if there is a dispute regarding the amount or propriety of the payment or whether the device or service is appropriate or adequate to meet the needs of the person to whom the Texas Commission for the Deaf and Hard of Hearing issued the voucher until the dispute is resolved.

(E) The commission may provide that payment of the voucher is conditioned on the return of the payment if the device is returned to the distributor or if the service is not used by the person to whom the voucher was issued.
